

For Immediate Release

**Prince William Home Improvement Named Dealer of Distinction
By Preservation Window and Siding**

NEW ORLEANS – April 13 – Greg Sliger, General Manager, of Prince William Home Improvement, was awarded Preservation Dealer of Distinction by Preservation Window and Siding during the groups annual awards ceremony in New Orleans.

Service excellence is key to the Preservation experience, so Dealers of Distinction are chosen based on several important attributes: high-quality installation and service standards; design expertise; established and consistent reliability; results-oriented consulting for energy solutions and project appearance; fair pricing practices; a solid reputation in both the community and industry; and high rates of customer satisfaction.

Focusing extra attention on technical, product and customer support are efforts that distinguish an authorized Preservation Dealer of Distinction from an ordinary contractor. It all adds up to a professional dealer who can provide consumers with the peace of mind that the siding and windows they have chosen will be a perfect fit for their homes and lifestyles.

“We are very pleased and honored to be named to this exclusive group of dealers,” said Greg Sliger. “In our business, our reputation depends on gaining our customers’ trust through superior customer service from start to finish, and we continually strive to provide the utmost in design and installation expertise.”

Prince William Home Improvement was founded by Scott Holtzhauer in 1986, to serve the remodeling needs of the northern Virginia area. Aside from the Preservation line, Prince William Home Improvement also carries a complete line of roofing, decking, kitchens and baths.
